So, here we go again, Lord. Will Hogg Ryder find any peace this go 'round? Will Brodie Bodine wise up? Does Jerry Barnett care that there's no Scarlet Streak this issue? Do you care, do I? Ah, but life's like that (like what?) Again we leap mentally nude into the world of two wheels and long highways with thrills and spills awaiting us, also a few guffaws and some cheek lifting hooahs. Again we stand against the storm with heads high (now don't think that's some kind of reference) to face a world bleak and dismal. Yes, folks it's that time again, time to sit back for our Bi-Monthly assault on your sanity. Good luck!

I've been reading your mag for about 2 years and I finally decided I'd write & tell you what I think of it. It's great! I really liked your April '72 ish. Especially "Big Futz and Little Harley." I guess that's because my thing too, talking pix. I like to go down to our local pits occasionally and snap a few of the moto-crosses. I ride a 2 month old Honda 350 Scrambler. Before that, I had a Honda 70 Scrambler, for 2½ years. I hope to ride from here to Dallas, about 350 miles, next summer. I don't care what anybody says, just keep your mag how it is and you'll be doing all right. Remember: Less sound, more ground. 1984 is only 12 years away.

I just finished my brother's CYCLEtoons mag and I was truly zonked. I'm 17 years old, long brown hair and big brown eyes. I really love music, folk, rock and jazz, people, especially service guys, and the world, all of it, and I'd love to write to everyone, especially guys. I have a thing about journalism, dancing, and horses. My sign is Virgo, if anybody wants to know.

Dig—this is the 3rd time I've written to ya, and I wouldn't keep trying if I didn't dig this mag, so please print my letter this time. I'm a chick, 16, with long wavy brown hair and eyes that change color. I'm 5', weigh 95 lbs., I'm 33-23-33, if anybody's interested in knowing that kinda stuff. I dig getting mail and I'll answer anyone who writes, but I'd especially like to hear from a few freaky, far-out guys. I dig the sun, autumn, heavy music, spacey drawings, good vibes, rapping with people, love the wild country up north, and a few million other things. So any and all people, especially guys, who think they could dig my head, and know where their head is at, get it on and write.

I sure dig your rag. CYCLEtoons is the greatest thing that could ever happen to a cycle lover like myself. Any girls 13-15, please write. I'm 14 years old, 5'11", brown hair, brown eyes. I'm not bad looking. Please girls, write me, there surely must be some girls in the 50 states who would like to write to me.

**JOHN SHELTON**

I am looking for a man who I lost about 2 years ago, when he returned from Viet Nam, his name is S/Sgt. Ronald Colman Fry, he is making a career out of the service, Army. If any of you people happen to know him, please have him write me, OK? It is important.

**ROSITA GREEN**

Well, folks, another great CYCLEtoons is read so I'm lonely. Anybody who likes a guy with shoulder length long brown hair, hazel eyes, tall, dark & handsome, digs Alice Cooper, Harleys, (choppers) Led Zepplin, Grand Funk, James Gang, Triumph, and wine, write. Really, editors, the only things in that part of this letter that's true is the length of my hair and digs wine. Really this lonelyhearts club jazz is for the birds. I don't think lonely people should take advantage of your farout Spokes Ups column. In the Feb. issue, I didn't see one good letter in the column. This is too much. Harleys Forever.

**CUNSERNDED**

Your mag is super cool. I just finished reading one and enjoyed it like mad. I don't have a car or a cycle (I'm a failure), but I really groove on wheels and chix. I'm 15, 6', brown eyes and brown-blond hair and rather handsome. I need girls from 14-17 to write to me, so hustle up there you beauties.

**JIM STEIGERS**

I really dig your mag. It's just great. I'd like guys between the ages of 15—?? to write a lonely chick who really digs motorcycles. I have blonde hair, brown eyes, 15½, and I'm 5'5", weight is 145. So all you guys who need someone to write to, I'm available. Please, all servicemen write, too.

On page 26 you'll find the CYCLEtoons lift out poster. To remove the poster simply lift the staples and remove, then bend staples back to keep the magazine together. We have plans of other lift outs and would like to hear from you on this —(•)—

I am 14 and I think your mag is really cool. The cycles in it are too cool. My compliments to the artists for a really decent job. I am going to be the proud owner of a Yamaha 60cc mini enduro in a few weeks. Keep up the out-a-site work on Cycle Chix. They are really nice. Any girls who want to write, between 13-14, be my guest.

I just got finished reading your Oct. issue. I really like your mag. It was the first time I've ever read such an interesting and unusual mag. I'm 13, going on 14, May 31. I have shaggy dark brown hair, brown eyes, 5'5". I like most sports, especially water skiing and swimming. I would never turn down a ride on a motorcycle. I have 3 brothers, all who have motorcycles. (Sportster, Honda 350, & Honda 90). But with the rides that I get from them, I'm still lonely. I have a whole list of pen pals, 19 in all, that I got from your mag. But I would like boys and girls, ages 13-15 to drop me a line or two. I live in a small town with not much excitement. So all you dudes, out there in pen pal land, please write.

Hi, you cool cats at CYCLEtoons! This is a girl wanted letter. I'm a lonely 19 year old male. I've got dark blonde hair, blue eyes, weigh 130, 5'9 1/2" tall. I own a 160cc Honda for street & trail use and am working on a 350cc Harley chopper. I dig the Grass Roots, girls, Sonny & Cher, women, hot cars, gals, cycles, females, hot pants and anything else that turns me on. All girls who want to write, do so, cause I'm dying to hear from ya.

I just read your Feb. edition and I think it's great, so I decided to write. I am 10 and I'll be 11 in May. I have brown hair and green eyes. I have a mini bike and 2 electric football games. I like football, baseball, swimming, cars, cycles, and girls. Any girls from 9-11 who would want a boy pen pal, please write.

**TIM DAVIS**

I've read your mag a few times, and I've also seen the various letters that people have written so I decided to write one. I'm 5'10", brown hair, brown eyes, medium build and I like blondes, brunettes, and black haired chicks, from 17-20. I'm 19. I had a 250 MX, when I get enough money I plan on buying a Bultaco 250 or a chopper. I like riding in rodeos, motorcycle racing, and parties. If there's any far out chicks that would like to write to a lonely cowboy, feel free.

I really like your mag. I really wanted to ask all the chicks from 12-14 to write a 13 year old boy. I'm 5'2", brown hair, and blue eyes. I have a friend that's 12. He's 4'11" and has blonde hair and blue eyes. So come on, write, please.

It has come to my attention that Dennis Ellefson, Dale Bollar, and Bob Taylor, and all others concerning the makings of "Hogg Ryder" have been acting quite inconsiderate, rude, and down right mean to poor, handsome Hogg Ryder, yeah! Gentlemen, how could you be so cruel as to do such unspeakable things to such a brave, daring, gorgeous wonderful man? Hmmm? I have only 4 words for you. Get on the ball. I shall give you one more chance and if you fail to do something, I shall report you to P.O.T.H.R. (Prevention of cruelty to Hogg Ryder) and drastic measures will have to be taken so do something.

I just finished your April issue and thought it was great, especially Hogg Ryder and 2 Reelers, also Brody Bodine. I agree with the note on Page 4. I ride a Honda mini trail 50. I think the Honda Z50A and Honda SL70 are two of the best small bikes around. You've got a real good mag there, keep up the good work. Oh, yeah, I am 12, 4'11", dark brown hair, any girls 11-12, feel free to write.

I just read the April ish of CYCLEtoons. Too much. I've really saved money with your mag. I gave my baby brother a Willie Wonka edible cycle for Easter, but the engine got hot and toasted the marshmallow seat. I'm still scraping it off my pants. I ride a '71 mini Enduro with a Hooker racing pipe and a racing filter. I am planning to get a Hodaka 100 this summer. I've ridden 3 motocross races, all hardluck cases. Any chix 10-12 feel free to write, I'm 12. Keep it cool. Ya got a great mag. Hodaka and Bultaco forever.

**BILL FATKIN**

Like, man, I just got finished reading the April ish and I just thought it was great. This was the first time I ever read CYCLEtoons, I really liked Hogg Ryder. I presently ride a Suzuki 185 that'll wipe out anything on the track in its class. I race in local motocross races and if there are any chicks 14 and up who digs cycles, please write a lonely moto rider. I'm 14, 5'7", brown hair, and half Apache.

**RICK MARTIN**  
Route 2

I'm 5'5", 15 years old, and a bike freak, dirt riding is my bag but I like all bikes (cars and CYCLEtoons, too). I have a Suzuki 90 dirt bike, modified, and I can ride pretty good. I also have a customized Honda 60 Scrambler and a Pontiac Le Mans. I think guys who claim to have bikes they don't have are sickly brats, because I worked hard to own all I have. I am lonely for a bike crazy chick 13-14 to write to me. I am too stoned on Bardahl and Forco to write any more. Hoping for letters from you chicks.

**ALAN CHARD**

I found a June 1970 issue of your mag. I like the Spoke Ups, part of it better than the 1972 April issue. The reason is because it had 7 pages of Spoke Ups. They had many people wanting a pen pal, I wanted one, too, because my friend has one and he says it is fun to get letters, so I bought a current issue but it only had 1 page of Spoke Ups. I would like to have a girl between 11-13 to be my pen pal. Many other people in my school like me, love your mag, but they want a pen pal, too so could you leave, please leave, 1 or 2 pages in your mag titled Lonely Hearts or Pen Pals? Please! Doesn't it make sense to you that if so many people want pen pals, don't you think it's what the people want in that section? Thanks for listening, not many people do.

I thought I'd write and compliment you on your great job you're doing on your book. I have really enjoyed reading it. Keep up the great work. I'm 19 years old, have shoulder length brown hair and brown eyes. I'm 5'3 1/2". I am a senior in high school. I graduate in May. My favorite hobbies are riding cycles, reading, and writing. I would love to write guys who are in the service.

Ya all probably remember me from the last time I wrote ya, which was in Dec. 1970. In the August, 1971 issue of CYCLEtoons, I was more than glad to see Hogg Ryder come out on top. It's about time the Ol' Poop took it for a change, instead of dishing it out. But I still enjoy the mag. Your Feb. '72 issue is really groovy, like all the others, but that article on page 15 almost knocked me off my Harley. What was that all about anyway? Well, take care and keep up the good work. Harleys rule this time and forever.

Far Out! I just read your April '72 ish of CYCLEtoons. I never heard of it until my brother was rappin' to his friends about it. So, I picked it up and Wow! It really turned me on Love Hogg Ryder, Two Reelers, and Spoke Ups. If any of you dudes out there, 14-? wanna write a chick who digs heavy music, people, especially guys with long hair, Triumphs and Kawasakis, here's your chance. O, yeah, I'm almost 14, 5'3" have long brown hair & wires. Love-n-peace.

**PAM MANNEBACH**

This is a gripe, concerning your June 1972 issue of CYCLE funnies, especially the mis-adventures of the porker that rides, your Hogg. First of all, I live in Daytona and if that dude of yours couldn't find a chick he was probably not, as anybody who has been here knows, even trying. Main Street is loaded with chicks, all year round. And if that joker was here on that bike, he would've been locked up for riding without a helmet. If you all want to cut down a town, why don't you try your burg, Tinsel Town. and by the way, any idget knows it never rains past February until October. Other than that, your mag is worth it, even if it is just to get the names and addresses of some far out chicks, let's hear it for all the classes of '73.

**CHUCK HIRST**

We're a couple of two lonely guys, that just want to get the most out of life. One is 16 years old, 5'9", dark brown hair and blue eyes. The other is 6'1", weighs 182½, 16 years old, dark hair, and brown eyes. He can bench press 255 pounds. Getting back to the other guy, he's got his own group, called The Re-Union which is a pretty good name, we guess. So any of you cute chix out there from the ages of 14 to 22, drop us a line.

**BILL & DENNIS**

Just read your April issue. Tell you what I liked best. Here goes: Ready? Two Reelers and Hogg Ryder, but I feel you should add a few new things, instead of just mostly cartoons, and other odds and ends, why not try to put in a classified ad section, or drawings from your readers, like sissy bar designs, or anything else that's hip. Understand? Also, why not try to add a few colored pictures, either of cycles or cartoons, or anything else that might pop into your brain. In my opinion, CYCLEtoons is a great thing, but like I said, try adding a few new things, ok? Any cool cats wanting to write, feel free, between 18-?. Keep cool, you guys, don't do anything I wouldn't do, ok?

**CHERYL ANDERSON**

Very good, Cheryl—The classified thing is an idea we've been kicking around as of late.

I really dig your mag. Every time your mag comes out at our newsstand, I am the first one there, I never miss your mag. One day the snow was 3 feet deep and it was hailing out and I walked 2 miles to our news stand and walked 2 miles back to our house to get your mag.

In your April mag, I really dug "Big Futz and Little Harley." I think all of us would like to hear more from the Ol' Poop. I really dug Two Reelers, Oh, yeah, any girls from the ages of 12-13, please write to a groovy guy.

I'm at an age where I've been trying to find out what magazines to buy every month and after reading your April issue of CYCLEtoons, I've decided to get it as much as possible. It's a whole lot of groovy pages to fit into one 35¢ magazine. I really go for Dewey Cycles and Scarlet Streak. For some reason, I think Hogg Ryder is weird but I just can't figure it out. I hope Debbie Kinsch is reading this letter because I would like to tell all of you CYCLEtoons guys that I also think she is off the beat. Any other people that go along with me, write me a few lines.

**CHUCKIE LARABELL**

I'm really glad you're not printing any more of those "I'm 13 with blue eyes" and "I need a groovy chicky pen pal between 14 & 16" letters. I really thought you were wasting pages with all of those. I liked the art work of Stout very much. It was the "Motorpsycho" story in your April '72 issue which prompted me to go out and dig up some earlier issues of CYCLEtoons.

Dear freaky creators of the finest magazine of Two Wheelers, including Ellefson and especially Hinton, I just finished blowing some well blown time chewing thru your Feb. & April issues, and Wow! Leapin' Lizards! Hot mother of Mud. Unquote. About that Hogg Ryder, or, if you'd rather, that adventurous escapade thru mechanical "Turn the corkscrew this way" nitty gritty gommmba, t'ro' da bum out. Let the creeps read Mekanix III. I mean, I don't hate garage toolers, but this is a humor mag. Let's see less monkey wrench and more Tanya. Hoo Hah (to coin a phrase.) As I peek in the other mag, you answered my wish. Tha's her bellybutton I see staring at me. Yipee. But do us all a favor and give Hogg back to Hinton. I'm not putting Bruno down, he's a great artist, nor Taylor, he's great, too. Even Ellefson, he's . . . he's . . . Well, back to the subject. Hinton did it in the first place, he even created it so he handles it better. By the way, Hank, Bwah, Big Futz and Little Harley was all right, like really cool and those sneak attacks, wow! By the way, I think I met Little Harley in D. C. the other day. Anyway, in case you didn't notice, Robert Williams, a great artist. I've seen some of his Coochy Cooty stuff in the underground. I'm not sure why, but his endings always blow my mind, not to mention how cool Brody is. If Nelson Dewey wants to make a little money on the side, he can always send his van-cycle into a model comp. I know I'd buy it right off. That dude's rough. By the way, a while back, a chick named Deb wrote for guys. Well, I wrote and my letter came back with "No one of that name at this address." stamped on it. What is this? I hope you're reading, Deb, cause I'd like to know what's going on. Back to Dewey, I'm a would be cartoonist and every time I've got an idea, before I can put it in an envelope, Nelson's got it in the mag. like the cycle sho wthing. I don't mean he stole my ideas, he just beats me to it every time! Now (thoroughly blowing my cover) any girls, boys, or ardvarks wishing to write to a short, fairly good looking 12 year old weird (contrary to Debbie Olson's belief, she is not the weirdest person in the world), I am, and would simply love to have a contest of weirdness with frivolity and knives, mustn't forget the knives, to prove it. I dig rock, cars, bikes, and anything else you can bring up outta the blue, including ardvarks, so write, till your fingers turn blue. Write till your eyeballs pop out, till your brain blows a fuse. Write till your pencil point breaks.

We've printed your letter, now perhaps someone will contact you.

All the people who think Hondas are any good are mistaken. I've got a Yamaha 175 that turns me on. I like Kawasakis better than any other bike, but some how I got stuck with a Yamaha. I'm 13 and ready to go. I have blonde hair and blue eyes. Kawasaki moving on.

RAYMOND D.

Did anyone figure how the square top lid's insulation blacks are supposed to fit into the round openings? Or is this a subtle, profound symbolism here? It certainly is diagnostic of Red Streak's problem all right.

After having read your April '72 ish, I find I can contain myself no longer. I must speak. Your mag is beautiful. I've been collecting them since No. 1. (It has a highly honored place in my trash pile.) The thing that inspired me to write was Bill Stout's Motor Psycho. His style was borrowed, it seems, (correct me if I'm wrong) from Wally Wood. Wherever he got it, Mr. Stout has a talent I envy. All of your artists are really great. Admittedly the story lines drag a bit sometimes but anybody can overlook such minor details. I would also like to go back aways to the Aug. '71 ish and tell you how much I enjoyed "Time to Put Yourself On/Off." I wish you would do some more like that. (Yeah, I'm a bit sadistic, blood-thirsty, etc.) But no matter what you do or how you do it, just keep on.

BUNDISH  
6350 Akerdeen Dr. NE  
Atlanta, Ga. 30328

Actually Bundish, the style was more Bill Elder than Wally Wood.

I've read a few of these mags and I really dig that strip of Hogg Ryder. My main hobbies are flying fast planes, riding motorcycles, swimming, skiing, girls, pole vaulting, basketball, football, and almost everything else you can think of. If any of you good looking white females would like to write to a 15 year old, 5'9 1/2", 150 lbs., blue eyed, dark brown haired white male, 14-18 years old, get that pencil scratching. I ran into the first mag at an airport in Shreveport waiting for my brother to come in from South Carolina. My brother likes your mag too. Kawasakis and airplanes forever. Go Navy! I'm Edgar Allen Poe's great, great, great, etc. cousin and I dig his poems, too.

Next issue, we've done a satire on "The Raven." by Edgar Allen Poe.

I've just finished the Dear Spoke Ups of your April '72 ish. I find your letters to the readers very true and righteous. I wrote to you earlier this month as for a letter it was not. It was an ad that should have said more than I want a chick ages 17-19. Se here is my letter. To begin with your mag is super rightious. To me, Brody Bodine is best. You have super art work in your mag and the stories will me ya laugh till ya cry. Also Hogg Ryder is neat. I really dig Cycle Chix. So keep up the great work. About that ad, I sent in, well the group I said I ride with, well, they have split into a new group. I've also split from the group myself. I'm forming a new group myself. Like I may sound like a Mr. Goody-Goody, but this group will be working for God. I'm gathering people to join in the Jesus Movement. The group will be called "The Crusaders." We will be traveling to different states on motorcycles, teaching and telling the word of God. Now I'm no son of a preacher man or anything but I know this is what I want. The first trip will take place in the summer of 1973. That will give a little over a year to get everything together. So anyone, boy or girl, from 18 to 25, with their own bike who wishes to join this club, you are welcome. There can be different chapters in other states. So let me know if you're in. Love, peace and a whole lot of happiness! God is Alive!

People! I've got a fire engine red '71 Nova into which I cut a blown 440. I use it to do just about anything including running it on tracks close by. It will get . . . Wait! I just remembered I was supposed to be writing to CYCLEtoons, not CARToons. Excuse me, I'm quite forgetful. Now back to business. I have a Honda 350 which I just mess around with. Like taking it apart and putting it back together and there is one thing I'd like to know. Where does the chain go? There is one thing I'm sure about and that is that I'm a male, 16 years old and about 6'4". I love music and females between 15-17, cute ones only. Please write.

Just read your April ish and it is great. I'm really glad you cleaned up the Spoke Ups column, as it gets a little corny for letters to just say I want a boy/girl. The Two Reelers were great this month and the cycle-van idea was terrific, if only it could be. You better lock up old Hoggy boy before he hurts himself. Maybe let him and Brody Bodine team up to defeat Ol' Poop? Many thanks for the story on my favorite, old S. S., Too bad about his accident, but he really should have an ice cream named after Harley. Big Futz and Little Harley really blew my mind. One of your best attempts. And, hey, fellas, couldn't you sort of cool it a little with the Cycle Chix? Not all of us bike loving chicks look like Racquel Welch, for pete's sake. Give us a chance. Keep up the good work, otherwise, and all else will be forgiven. Hugs and kisses to Dennis Ellefson's teddy bear!

## CYCLIB

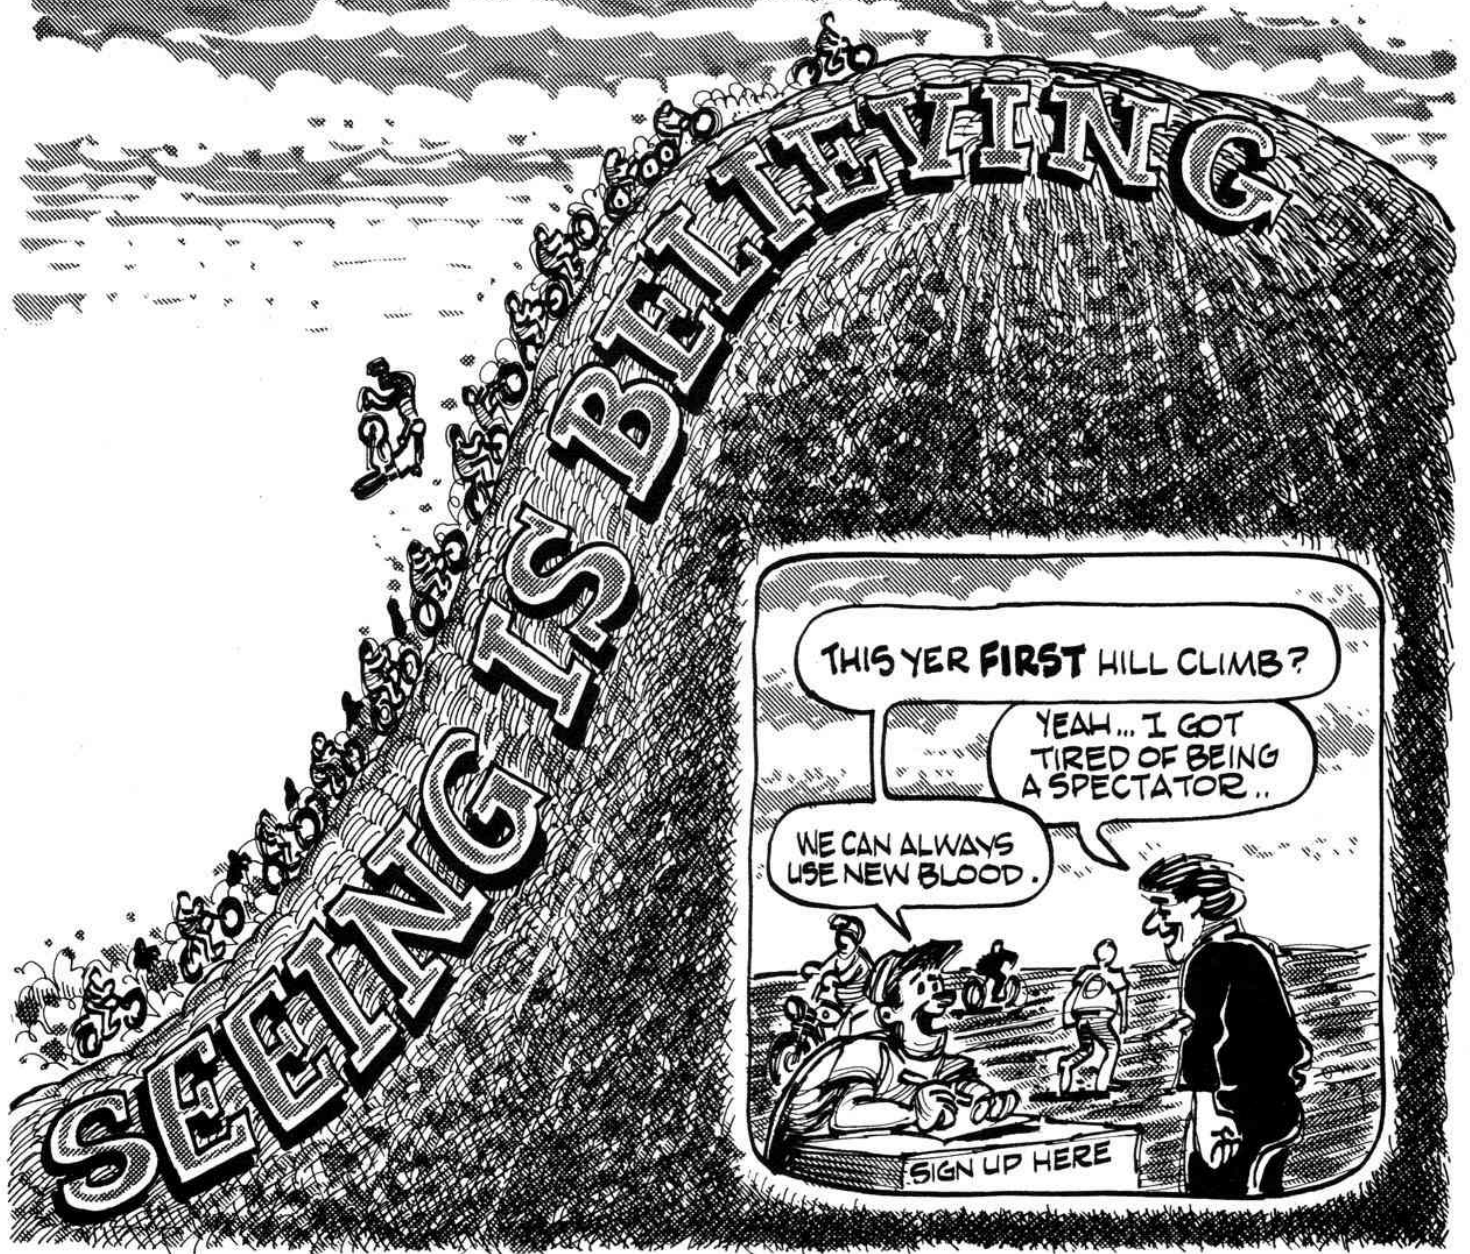

Well, Bunky, as Mr. Dickens would say, "It was the worst of times; it was the best of times." He didn't say, "Any motorcycle worth having is worth cheating for," but, then, that's another tale. However, this is the worst of times and the best of times and they are achanging according to Dennis Ellefson who claims to have said That. Dennis also claims to have invented the sewing machine and the electric lightbulb which speaks elequently of his Diogenian search for Truth and a Free Public Toilet, and that brings us to Nelson Dewey.

And Women's Liberation. Femlib (in Timespeak) is an Idea Whose Time Has Come ("Hey, Femlib, honeybaby, chickee darling, que paso?"). This will have a profound effect on your Lifestyle, my Lifestyle, Dennis Ellefson's Lifestyle, and Nelson Dewey whom we quote, "yeaaaaah, like . . . yeaaaaaaah . . . man."

Specifically, sexual roles will obscure, meld, and be redefined until even the World of Motorcycles will be but a mere shadow of the Machisimoic Subculture we all knew and loved, strutting and fretting its hour upon the stage, then heard no more, for the Hour of the Cyclib (Women's Liberation, Motorcycle Division) is upon us. Women will no longer suffer the indignity of being objects forced to ride on the back of the motorcycle, while us male chauvinistic pigs have all the fun. They demand the right to be pigs also.

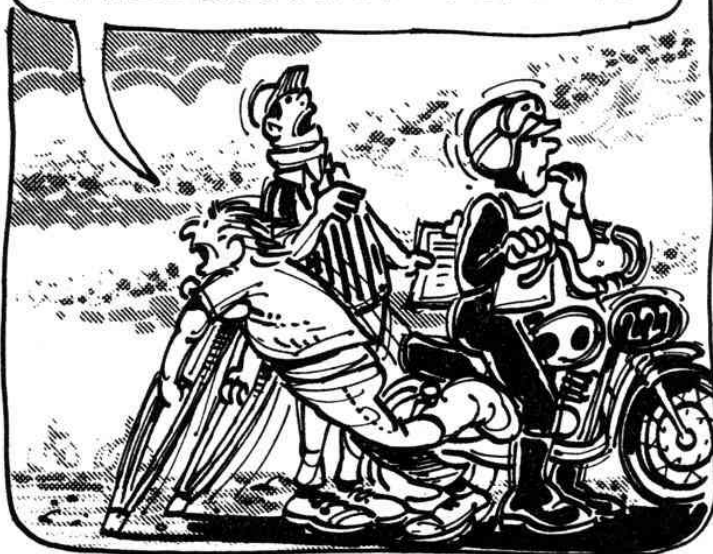

Since a picture is worth 436 words under Phase II of our President's Economic Program we illustrate:

Pictured is Edwinna F. Schwartz and her boyfriend, Marvin, wearing his Kulak Sheepherder's coat, \$149.95, P.O.E., and his Royal Canadian Mounted Police Laced Motorcycle Boots, Issue 1937, \$13.95, Harry's Army-Navy Surplus, Burbank, Calif.).

# Ode to Butchie Mitchel

Jimmy  
age 3  
Jimmie  
age 4

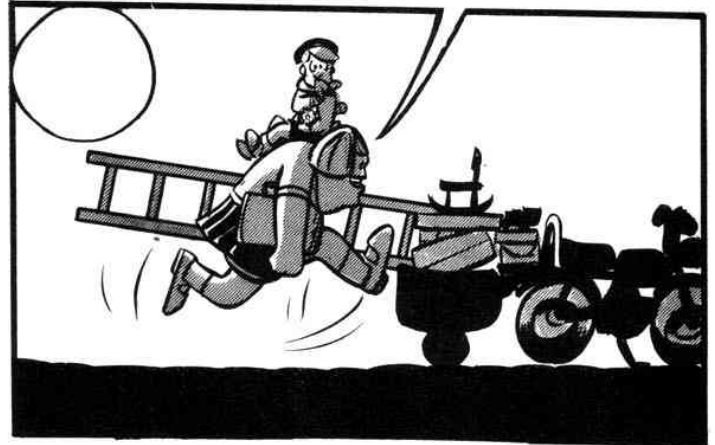

BACKGROUND MUSIC: LEGATO *OCARINA* INCORPORATING THE MILD WISPS OF A *PULCIMER* PLAYED 'FUOCO-GIOCO' IN *E FLAT* MAJOR BUILDING RAPIDLY TO 'ALLEGRETTO' IN THE KEY OF *G* MAJOR AND HELD IN FOUR PART HARMONY FOR A WEEK!

Jeannie went to Jimmies house late into the night,  
She gathered Jimmie and his things  
beneath the moon's bright light.

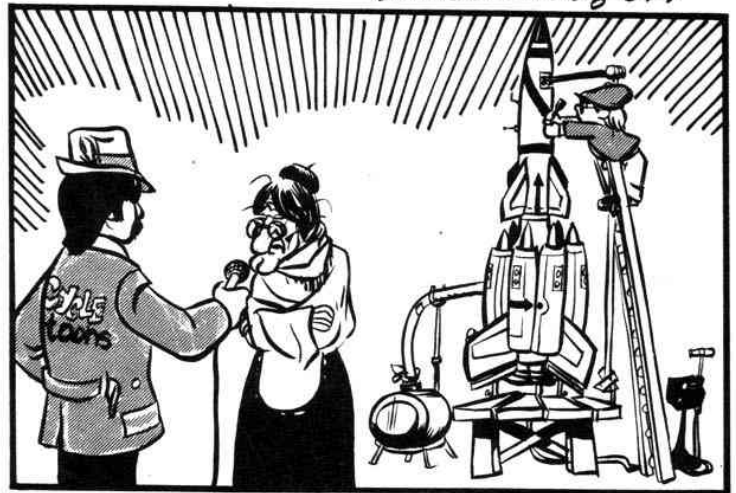

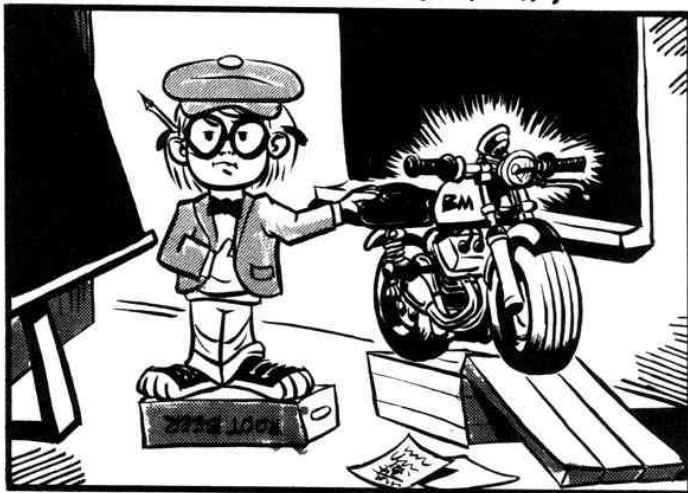

Jeannie was only four years old,  
Jimmy only three.  
"WHAT DOES YOU DO?" wee Jimmie asked,  
"ASK DEN-DEN AND TOOT, **NOT ME!**"

It seems that Butchie Mitchel, a bright young lad of six,  
had built himself a boss machine  
he did it just for kicks!

The kid was smart the neighbors new, for it was known that his I.Q. did way surpass 242 —  
"THERE AIN'T NUTHIN' THAT THAT BRAT CAN'T DO" said Emma Mutts age 82!

But what of Jeannie and her plot, she had arrived, her quarry sought, would now unfold the bundled Tot, but this it seems was a counter plot — for her connection with Butchie WAS NOT!

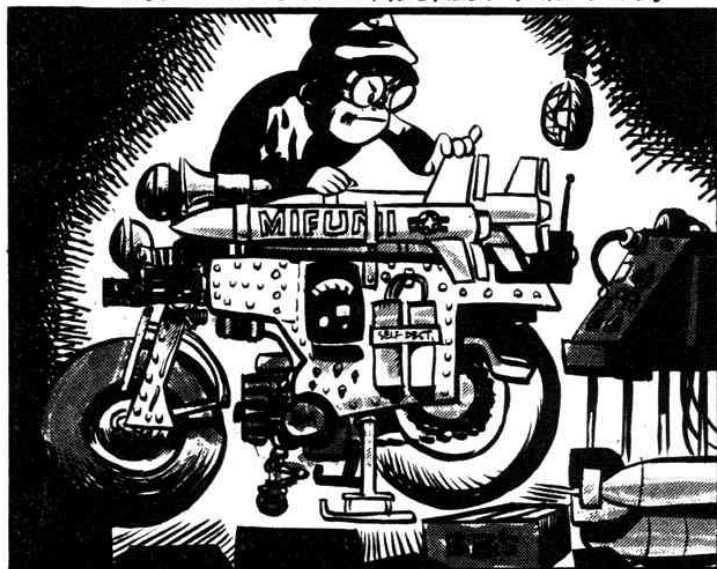

'Twas three A.M. the engine fired,  
the neighbors awoke, appeared quite wired.  
Butchie spoke to express his glee!  
"THE COMMISSURE COMPLEX CONCURRENT TO THE DEMODULATION HAS EXPUNGED A MELODIOUS CACOPHONY!" said he.

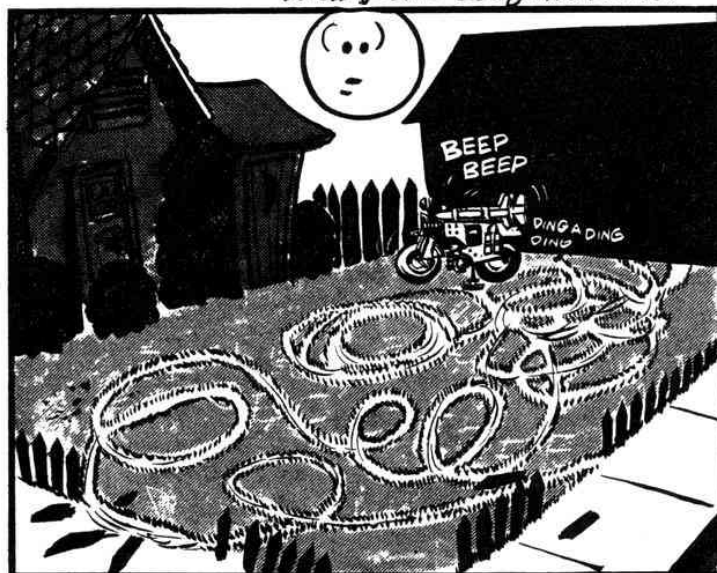

The dogs did growl, the cats did bark, as Butchie left for a morning lark,  
The neighbors exclaimed much more than raffle,  
"IF YOU RIDE THAT THING, THEN USE A BAFFLE!"

With that the brat worked day in and out,  
on a fiendish plan to end his pout.  
For what he was building was not a mere trike,  
But a radio controlled ASSAULT MINI-BIKE!

Out of control it did seem to be, for steering the thing was no one to see. It steered to the lawn of old Mrs. Mutt's and proceeded to spin twenty-two doughnuts.....

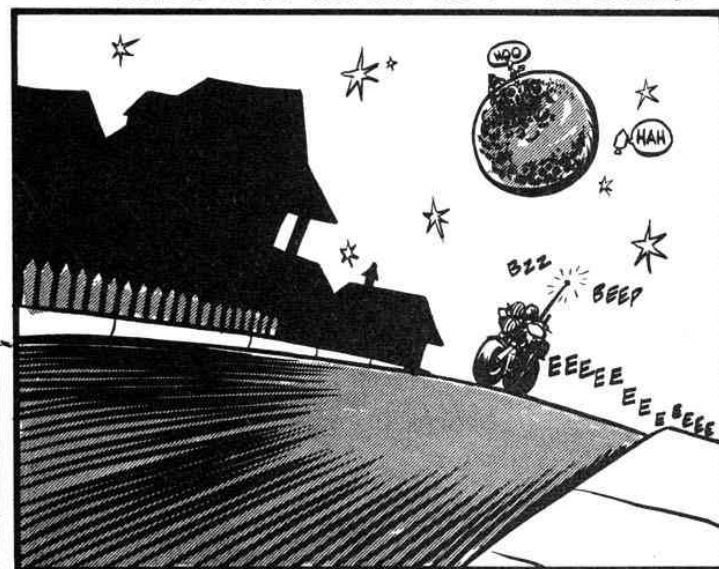

So Butchie made a baffie; but once installed in place, the engine blew completely leaving nothing — NOT A TRACE!  
Enraging Butchie's genius and surrounding him with gloom, "I MUST SEEK REVENGE" he said.

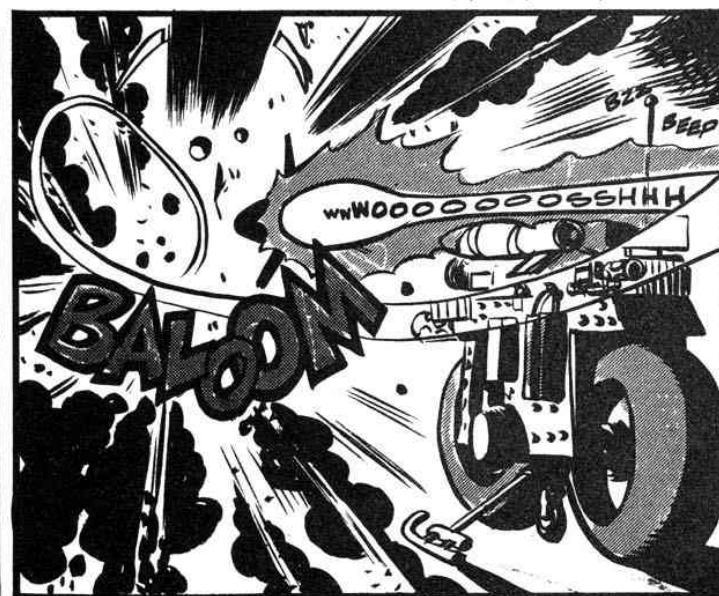

"I'LL BLOW UP THEIR BATHROOMS!"

So as it happened one starlit night,  
from far down the street came a truly odd sight. A mini bike, loaded to the hilt, with surface to air missiles that Butchie had built

Three rockets were launched FITZ BOOM, FITZ BOOM, which totally removed Mrs. Mutt's BATHROOM!

It moved down the street and from its' speaker it spoke:  
 "REMOVE YOURSELF TOOT-THIS ISN'T A JOKE!"  
 I'M NOT KIDDING" it said "SO PLEASE DON'T  
 BE SLOW, FOR IN JUST 14 SECONDS YOUR  
 BATHROOM WILL GO!"

It got 15 more when the Air Force arrived,  
 'Twas like watching a movie that seemed quite  
 contrived. After 2 tons of rockets it was now  
 using mortars. WHAT'S GOING ON HERE!  
 WHO'S GIVING IT ORDERS?"

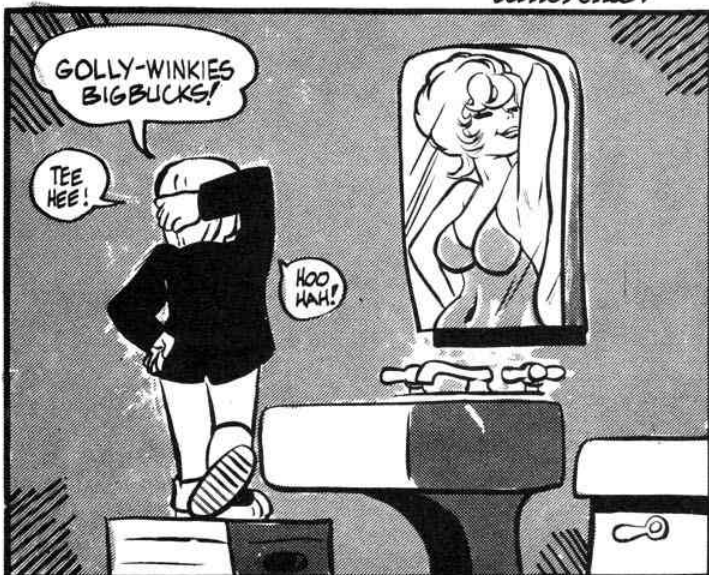

But butchie cares not, no really, he doesn't,  
 for he's sitting reading "THE WAFFLE WHO WASN'T"  
 Never noticed the Army outside of his house  
 While he read chapter twenty introducing  
 Door Mouth.

The mini it seemed had been programed that night,  
 had completed its' mission by dawn's early light.  
 Had butchie done this, a mere lad of six?  
 Such a genius it seems could perform many  
 tricks!

By thinking quite hard he could change his  
 appearance,  
 he could stay that way too, with convincing  
 adherence.

He could be someone different,  
 would not cause a look.  
 He could even be someone that  
 could edit THIS BOOK!

Just my luck, I get a chance to make a long, fast run and that dumb 2 Reelers sign is in my way!
